

Elsecar Heritage Railway Route Guide

Introduction....

The **Elsecar Heritage Railway** (EHR) is located on the southern part of the former South Yorkshire Railway freight-only branch which ran from Elsecar Junction on its Mexborough to Barnsley Line.

The Elsecar Heritage Railway operated an out and back tourist train ride on a 1 mile (1.6 km) section of the branch using steam and diesel locomotives, previously running between Rockingham station (at the back of the Elsecar Heritage Centre) and Hemingfield Basin. The railway was operated using a variety of different preserved rolling stock.

The EHR had planned to eventually operate the line into Cortonwood, with a new halt at Hemingfield, doubling the length of the line to two miles.

Elsecar Heritage Railway was mothballed indefinitely after operators surrender their lease in November 2020, it is reported that a commitment was made by Barnsley Council to reopen the site. The route has been painstakingly recreated in Trainz By Lewis Brown (LJ Trains)

Requirements....

This route requires a copy of Trainz Railroad Simulator 2019 (Platinum Edition) or later to work and the following DLC packs...

- ECML Kings Cross Edinburgh
- ECML Edinburgh Dundee
- Cornish Mainline & Branches (TRS19)
- Settle & Carlisle (S&C)

How To Install....

Within this zip folder you will see a file named "Elsecar Heritage Railway.cdp" drag and drop this to the desktop or any desired file location on your computer. Next launch Trainz and open the "Manage Content" tab this shall bring up the Trainz Content Manager.
